

Route Options

```
# Nest resources for auto path_prefix
map.resources :groups { |g| g.resources :users }
=> "/groups/:group_id/users/user_id" etc.
```

```
# New collection or member action, name and path prefix
map.resources :users,
  :collection => { :replenish => :post },
  :name_prefix => "dominions_",
  :path_prefix => "/domain"
```

`dominions_replenish_users_url()` => `POST /domain/users;replenish`

Mime

Defaults
 :all :ics :text
 :atom :js :xml
 :html :rss :yaml

```
Mime::Type.register "image/jpg", :jpg
> /config/environment.rb
```

```
form_tag( day_url(@day), :method => :put )
link_to( "Delete Day", day_url(@day), :method => :delete )
```

Routes

DaysController ← creates routes to map.resources :days
> /config/routes.rb

```
def index
  respond_to do |wants|
    wants.html { render_text("do something") }
    wants.xml { render :xml => @days.to_xml }
  end
end
```

Helpers	HTTP	Path	params		
			:action	:id	:format
days_url()	GET	/days	"index"		
day_url(@day)	GET	/days/6	"show"	6	
formatted_days_url(:xml)	GET	/days.xml	"index"		"xml"
formatted_day_url(@day, :jpg)	GET	/days/6.jpg	"show"	6	"jpg"
new_day_url()	GET	/days/new	"new"		
edit_day_url(@day)	GET	/days/6;edit	"edit"	6	
	POST	/days/	"create"		
	PUT	/days/7	"update"	7	
	DELETE	/days/7	"destroy"	7
